Reuter :-Should the Press decide to cater for itself in the matter of home telegrams, it is hardly likely that the Company will find it worth while to continue to supply public news to the several Governments, or commercial news to bankers and merchants. The Ra. 6,000 to Ra. 7,000 a month that is probably paid by the Press and the Governments in India for Reuter's telegrams should go a long way towards providing the public with a much better service than the present. Most of the Indian Press subscribers have at this moment a representative in Landon, and those represents tives might easily meet, and favour the Secretary with their unanimous opinion of his Company's telegrams; and should be hold out no hope of speedy and permanent amendment, they should then draw up and sign a letter, giving the Company the required six months notice of the termina-

tion of the existing arrangement. HENRY H. Hadley, Secretary of the Business Men's Moderation Society, of New York, has made his first annual report, and the following figures show some of the work done during the year :-

(Gazette.) We believe there is a quantity of not less than 60,000 piculs of Saigon rice now in Yokohama, for which there is no prospect of speedy or profitable sale. The holders or speculators in Japan rice bave taken the precaution of spreading a report to the effect that the consumption of China rice will assuredly produce cholers. So great is the fear of that disease that the silly report has seriously prejudiced the sale of the rice now on hand.

We learn with great regret that Mrs. Mourilyan, who loft here en route for England, with Mr. Mourilyan and family by the City of Tokio on the 18th May, died on Saturday last at Salt Lake City. The cause is said to have been an attack of inflammation of the lungs. The deceased lady was well known and highly esteemed. and great sympathy will be felt for Mr.

Mourilyan in his affliction. Among the arrivals by the Gaelie on the 12th instant was Mr. John Walter, who resumes charge of the Hongkong and Shanghai Banking Corporation at this port. Mr. Walter is so generally known and esteemed that his return will be haited with pleasure and satisfaction, though it is but scant justice to say that the acting management of Mr. Haselwood has made the latter gentleman exceedingly popular and that all would like to hear of his permanent promotion to a post for which his business capacity and buvarying courtesy

eminently fit him. We are told a story that certainly seems wholly incredible because of its gross absurdity. It is this:-the government have stationed two officers at the exchange Shosha in Yokohama with express instructions to arrest the directer of the Shosha and lodge him in prison in event of the depreciation of currency exceeding a certain range, the standard being an arbitrary rate of vaine assessed by the officials, irrespective of the hws of supply and domand. Ridiculous as this scheme seems to be, stranger things have been done by officials. in their perpetual and vexatious interference with everything that does not concern them. The quotation of to day for rice in Tokio is said to be yen 121 per koku, which means, in accordance with the laws of commerce, an exchange for currency of 162 instead of 187; An illustration may given. Saigon rice can be laid down here at about \$6.00 per koku, and with an allowance of 25 per cent, for superiority of grain the price of a koku of Japan rice you 12.50 now current signifies, when taken in combination with the abundance of the last crops, a currency rate of 167, or 80 worse than the sham quotation assessed by officials at the monopoly exchange shop. It is very openly stated that a bond fide would at once depress the rate from 187 to 145; that is, there are no buyers at the quotation of the day. Foreign merchants, however, do not hold satsu, and it is more than the liberty of any Japanese subject is worth to offer such a quantity of paper money for sale as would have the effect of exposing the hollow and utterly false valua-

tion put upon it by the officials. Yokosuka was the scene of a conflagration last night, (15th) 150 houses being destroyed. A fire in Tokio, last night also, rendered thirty-nine families homeless. At about 3.80 this morning (16th) a fire broke ont in Ogimachi which speedily spread and was not got under control until a large number of houses had been consumed There was no wind at the time otherwise there would have been considerable destruction of property as the district consists of a collection of very lightly built wooden
